SUMMARY

Full-Stack Developer with **1 year 9 months of experience** building **React** and **Laravel** applications for clients in Malaysia and India, including a **multi-tenant SaaS platform**, **ERP** and **POS** systems. Skilled in **React, Redux Toolkit, REST APIs and MySQL**; uses **AI coding agents (Claude Code)** to ship features faster.

SKILLS

Frontend: React.js, JavaScript (ES6+), Redux Toolkit, TailwindCSS, HTML5, CSS3
Backend & Database: Node.js, Express.js, REST APIs, MySQL, MongoDB, Firebase
AI-Assisted (with Claude Code): Laravel, PHP, TypeScript, CodeIgniter
AI Tools: Claude Code, Claude AI, Google Antigravity, Gemini, Prompt Engineering
Tools: Git, GitHub, Vite, Postman, cPanel, VS Code
Languages: Tamil, Telugu (Native), English (Professional)

EXPERIENCE

Associate Software Engineer Sep 2025 – Present
Grasp Software Solutions Madurai

- Build **React (Redux Toolkit, TailwindCSS)** frontends and **Laravel REST APIs** on **MySQL**, using **Claude Code** for AI-assisted backend work.
- Delivered client systems end-to-end, from requirements (SRS) to **cPanel deployment** and user manuals.
- Implemented **PDF/Excel reports, QR code ticketing, thermal receipt printing**, role-based access and audit logs.
- Integrated **WhatsApp (AiSensy), iPay88 and Stripe**, and maintained **CodeIgniter** client applications.

ReactJS Developer Intern Jul 2023 – Feb 2024
Senchola Technology Solution Bangalore

- Developed an **ERP restaurant web application** in **React.js** with Sales, Ingredients, Labour, Costing and User Authentication modules.
- Integrated **RESTful APIs** and took part in code reviews and sprint planning with a cross-functional team.

PROJECTS

Pawn Shop System – Dsara Asset Ventures **Live Link**
React 19, Redux Toolkit, TailwindCSS, Laravel 11, MySQL

- Multi-branch gold pawn ERP for a Malaysian client: **pledge wizard, renewals, redemptions, interest calculation, auctions** and day-end reconciliation, with **WebAuthn passkey** login.

Batu Caves – Ticketing & POS System **Live Link**
React 19, Redux Toolkit, Zod, Laravel, MySQL

- Admin, Counter and Scanner apps with **QR ticketing, gate scanning** and **58mm thermal printing** on iMin POS devices.
- Modules for **partner commissions, daily closing, finance (P&L), inventory and payroll** with PDF/Excel reports.

Temple Management System – Multi-tenant SaaS
Vanilla JavaScript, HTML, CSS, Laravel 12, PostgreSQL

- SaaS platform used by many temples, each with its own **database, free trial and subscription**.
- Built the **Pagoda Tower** light-booking module (light map, bookings, renewal reminders) and the **Outreach** module, and improved the UI across the app.

EDUCATION

MBA in Systems and HR – K V Institute of Management and Information Studies, Coimbatore 2019 – 2021 | 73%
BE in Mechanical Engineering – K S R College of Engineering, Namakkal 2015 – 2019 | 70%

CERTIFICATION

- Complete React Developer (Redux, Hooks, GraphQL) – Udemy **[Certificate]**
